Dear Sir/Madam

I am writing this letter to request for recover my scholarship ownership.

In semester A, which is April, I have failed to maintain my scholarship due to bad GPA, which is 3.33, I felt really regret for not scoring well during semester A. This semester, which is semester B, I decide to request for recover since I believe that I would be able to maintain my results with flying colors. since my family's economic situation is not able to help me to continue my education even though I already work as part-time to pay for some of the school fees, I really hopes that scholarship committee accept my request to recover my scholarship ownership so that I can pursue my education.

Your faithfully,

(Lim G Wei)
